Fall to your stone and I feel your voice surround me
crawling alone and I
hear your silence what it means to me what it used to
be patiently I'm
waiting for your image solemnly I'm waiting for your
call what it means to
me what it used to be deep in the shade of the trees is
where you'll find
me hiding away from your eyes of fire deep in myself I
can feel desire
growing glass of my heart
shatters to 1000 pieces grasp your bony fingers hold
your empty hands look
in my eyes see those withered moments look at my
face you'll see those
melted tears look at my heart it's so cold and lifeless
look at my soul
it's been dead for years what it means to me what it
used to be darkness so
bright I'm sensing my confusion warmth is so cold I'm
reaching for your
mind path is so clear no
more false illusions I'll just wait here until the day you
rise I'll just
wait here for 1000 years I'll just wait here until the day I
die
