Somehow it always comes around
To be the best for you
The best for me and then we'll
See the beauty of it all again
Again

You stay up all night long
As you wrestle with yourself
And it only leaves you tired
Then you see the mess you've made
Trying to trade the things you know,
What you believe, for this control
It's too bad your will don't roll
Because you're standing in the way

Somehow it always comes around
To be the best for you
The best for me and then we'll
See the beauty of it all again
Again

Take your money, take your time
Throw it all up in the sky
Give it up, let it go
It's only standing in the way

Somehow it always comes around
To be the best for you
The best for me and then we'll
See the beauty of it all again

Somehow it always comes around
To be the best for you
The best for me and then we'll
See the beauty of it all again

You gotta throw your switch on
The autopilot function
You won't be in the way

Somehow it always comes around
To be the best for you

The best for me and then we'll
See the beauty of it all again

Somehow it always comes around
To be the best for you
The best for me and then we'll
See the beauty of it all again

Somehow it always comes around

Always comes around

You know it always comes around

Somehow it always comes around
