Please turn around
I'll take your heart, you take my hand
You're not far, and I can reach you
I hear your cry
even though your lips aren't moving
I know exactly what you're saying
I'll give you everything your seeking
without the interest now
I'll do anything

I will find you patiently and I will bring you back to me, back to me

We used to be the best of friends until you left without goodbye, you ran away I wish that I could say I didn't see it coming I know your kind, but that's ok

I will find you
patiently and
I will bring you
back to me, back to me
I want to show you
what you mean
I want to show you
what you can be, what you can be

I'm not going to think about it I'll forgive if you forget Think about it, I'm not going to we can get around this mess again
