Uh, yeah
Get up if you're feelin lifted
Music nice bobblin the bitches
New kid on the track so gifted
On a mission to live life so exquisite
If you're with it
Well then lets go
I'm up next so I'm bout to bring the best flow
On to the next show
You know I got the best ho's
Rockin from the east all the way to the west coast

Yeah, I'm so Lamar Odom
Lucky number 7 you know I ball on 'em
Stay above homie I never fall on 'em
Haven't woke 'em up yet but I'm about to dawn on 'em
Ha, hot and fresh out the west
Straight from SLO where the girls look the best
Shuttin down parties like we never need rest
Dj spinnin my shit hits you straight in your chest
Yes this is just the way we do
If your lame well sorry we can't see you
You can watch us, we're moving on up
Volcano homie, we bout to erupt

Get up if you're feelin lifted
Music nice bobblin the bitches
New kid on the track so gifted
On a mission to live life so exquisite
If you're with it
Well then lets go
I'm up next so I'm bout to bring the best flows
On to the next show
You know I got the best ho's
Rockin from the east all the way to the west coast

This music it comes from within me
How is his sound so loud he's so skinny
Shoot this is just the beginning
These words just fly off of my tounge like I'm spitting
But no loogies I keep it orbit clean

Tasty like a short cake with whip cream
It seems, that I can grasp all the senses
Girl take you deep way over the fences
Yeah as I tend to my artistic side
All the haters and all the biases aside
Open your mind let your body come for the ride
Cuz in the end we're all just tryin to have a good time

So Get up if you're feelin lifted (yeah)
Music nice bobblin the bitches
New kid on the track so gifted
On a mission to live life so exsquisite
If you're with it
Well then lets go
I'm up next so I'm bout to bring the best flows
On to the next show
You know I got the best ho's
Rockin from the east all the way to the west coast
