Move that body
Move move move that body
Alright

B-b-b-baby girl well I'm sorry but I can't say that I love
you
But I can tell you that I'm in love with the way you move
That body baby move that body right
Move that body baby yeaahh

Uh, I love the way you move it
If you keep it up well baby Imma lose it
Cuz you got me lost in love fall in a trance
But not like that baby I just wanna dance
Yeah so keep it keep it shakin
All them other girls is gettin frustrated
When you on the floor
Baby it gets bakin
I don't need no drinks cus your body got me faded
Off on to a whole 'nother level
Not stupid but you got me feeling special
And I just wanna blast off with ya
Make it real hot up in the stars get the picture
Yeah that's just how I like it
Just slide around this way babe like a side kick
And lets dance untill the night ends
I love the way you move but I won't be your boyfriend
go

Baby girl well I'm sorry but I can't say that I love you
But I can tell you that I'm in love with the way you move
That body baby move that body right
Move that body baby yeaahh

Sorry love I just can't commit
I'm not looking for no serious relationship
But everytime you down at the club

Your body makes me trip down fall in love
And every time your up at the house party
You get it get it poppin like bottles of bubbly
I be goin dumb yeah of course my homies too
Hello girls, but all we really want is only you
Shoot, move, move it all around
Show them other girls how to get down
How to twerk twerk it
How to work work it
Got me pullin money out like I'm about to purchase
Yeah and I would really do it
Cuz the way you move it girl is just stupid
You and me together in a long romance
Haha well as long as you dance
So
Move that body
Move it slowly
Move that body baby
Now get it going
Move move move it right
Let me see you move that body all night
Just move it baby
Now let me see you move a little crazy
Go go show 'em how it's done
Go go go girl have a little fun
Go go oh but just know

B-b-b-baby girl well I'm sorry but I can't say that I love
you
But I can tell you that I'm in love with the way you move
That body baby move that body right
Move that body baby yeaahh
That body
That that that body
Baby b-baby
