Uh, yeah
I'm moving on up like some escalater steps
Feeling like I'm on deck they say I'm up next
Life of the party like a respirator to your chest
Making chicks swallow like they failed a sobriety test
Yeah, I'm coming out loud slappin
All original sound is fantastic
Model chicks flock my way but no plastic
I like the goody goodies but I always choose the
baddest
Catch me with 'em
Struttin in my rainbows
Cali kid you and the homies ain't came close
Aim to deliver heat like a slame dough
Life like a movie, so get your fandango
Chasing dreams
Tryna catch that top spot
You aint gotta tell me I know It's a long shot
But my flow stays spewing like I'm eating pop rocks
Girls hoppin on like a Wi-fi hot spot
Don't get it twisted
On these girls I never grab
Cuz I got one that's more than you could ever have
Yeah, I got that freshest swag
If I make your tallie wag
You can be my better half
Ha, babe, I'm gonna get it
Bustin mic's all night
You know I'm gon' spit it
Whatever you pitch yeah
I'm gonna hit it
But if your spice is lame sauce, nope forget it
Sippin on cheap brews I obtain that better feel
Think my sound is nice now I'm gettin better still
And naw, I aint claimin that I'm hella I'll
But my guitar and I are flirtin with a record deal

I'm coming out loud baby can you hear that
Guitar rockin with this rap I know you feel that
Sit back relax and just chill back
And let the beat bang real fat

Let the beat bang real fat
Let the beat bang real fat
Let the beat
I said let the beat bang real fat

Uh, real fat like a big barrell
Sound makes you step bro like Will Ferrell
Vision is real narrow stay lookin high
Livin life in the sky straight bookin flights
Yeah, and I think I just frickin might
Choose this life, cause I don't like to sleep at night
I'd rather kick it or just party bruh
Escape from the real, Chronicals of Narnia
Girl you can come too
So lets bounce babe
Anywhere we wanna go don't that sound great
How bout around 8
I got a SUV
So your friends can come too
I got extra seats
I just love this
Catch me grinnin cheese face out in public
And trust me
I aint gonna stop
Cuz I'm coming out loud like a gun shot

I'm coming out loud baby can you hear that
Guitar rockin with this rap I know you feel that
Sit back relax and just chill back
And let the beat bang real fat
Let the beat bang real fat
Let the beat bang real fat
Let the beat
I said let the beat bang real fat
I said let the beat bang real fat
I said let the beat bang real fat
Let the beat bang real fat
Let the beat bang real fat
I said let the beat bang real fat
I said let the beat bang real fat
Let the beat bang real fat
