Uh, how could you do it?
up and leave me baby, what are you doin?
okay go to college, love have fun
I got dreams to but only you can pursue em
see I'm that one, stuck at home
me and our baby, feelin so alone
just want you here and your son does too
got me writin in my diary feelin blue
i wonder you, are you out partyin?
chillin at the beach in the sand, lifeguardian?
or maybe ridin waves? soakin in the rays?
just eats me up you ain't seen your son in days
baby okay, I guess I see
we'll be better off if you get a degree
but what if after a-a-all of this time
you find someone else and don't wanna be mine?
I'm tearin myself up, feelin so down
can't find no help up, lookin around
at the door check my phone
it's the weekend maybe you will come home
but, it seems you're in SLO
guess you had to study, or maybe had a show
I just don't know and Im feelin so cold
so baby come back and please don't go. oh.

So glad that it's spring break
you're home talkin about your GPA
on the deans list with a scholarship
things lookin up ya your life is great
and I'm really happy for ya
go on get out experience california
yeah, and that crazy college life
I just hope that you think of me at night
still will you be my number one?
boy you're my everything, my morning sun
and my light in the evening, boy am I even
a thought on your mind, are you still believin?

in us, cuz we used to be in mad love
never imagined this would that tough
don't get me wrong baby I'm real strong
but these dark nights are gettin real long
and your baby boy is gettin real big
wishin daddy was here to play with him
he loves you and I know that you do too
but he sees you the most on the YouTube
it's too cute when I turn on your music
he goes stupid like daddy used to
and I lose it, like a loose tooth
so baby come back, cuz we need you.
