Here comes the storm by PJDS
We're lost at sea
With no sails anymore
Only our hands
To get us ashore
The wind the waves
They fight us like hell
Here comes the storm
We're under it's spell

No holly ghost no god
Is in sight
No virgin mother
No hold on tight
Upon the upper deck
They're ringing the bell
Here comes the storm
We're under it's spell

I love you baby
I'm in love with that smell
Here comes the storm
We're under it's spell

From the tower
I saw a ship
In distress
A tiny creature
Caught in a mess
As I was gazing
From the tower
I fell
It was the storm
It had me under it's spell
