Silly that you think that I'd lie here
Shakin' wide awake and waitin'
For the rule on where you belong - so long

Deception is the way to keep on

Abuse me and only
Leave the world not know when you
Turn me away
Assure me they can't see
The pain you put me through

Sorry to break the news
See the bruise
The fear you inflict on me
Never feel you're wrong? - How long?
Will it take to see it the right way

Deception is the way to keep on

Abuse me and only
Leave the world not know when you
Turn me away
Assure me they can't see

WHYYYYYYY?!

Abuse me and only
And Leave the world not know when you
Turn me away
Assure me they can't see
The pain you put me through while knowing
I'd never be the same
Abuse me and only
Leave the blame inside of you
