I see the magic taken out of our dream  
That kept me young and trusted, singled out and  
dazed  
What else can you do for me to keep me standing?  
Every day's a new confession, vulnerable, aren't we all  
?

Without faith we go on till it's over  
You know the world doesn't always love you  
But you never let that define you

Just have faith, we'll go on, we'll get closer  
To everyone who ever tried to hate you  
Say goodbye, it was nice to know you

I've become so cynical and tell me now how can I hear  
The voice of reason, you're so beautiful  
What else can you do for me to keep me grounded?  
Everyone's a new possession, vulnerable, aren't we all  
?

Without faith we go on till it's over  
You know the world doesn't always love you  
But you never let that define you

Just have faith, we'll go on, we'll get closer  
To everyone who ever tried to hate you  
Say goodbye, it was nice to know you  
It was nice to know you

It was nice to know you  
It was nice to know you

Without faith we go on till it's over  
You know the world doesn't always love you  
But you never let that define you

Just have faith, we'll go on, we'll get closer  
To everyone who ever tried to hate you  
Say goodbye, it was nice to know you

Without faith we go on till it's over

You know the world doesn't always love you  
But you never let that define you

You break down, get back up, we'll get closer  
To everyone who ever tried to hate you  
Say goodbye, it was nice to know you  
Nice to know you
