Beg and pleading  
Why don't you feed another lie  
You can climb all your fences  
But nothing's gonna keep you high

(So far nothing's working)  
Nothing's working  
(I've seen love die)  
It's falling out

Hate your beautiful way  
We live in your game  
Your days getting closer  
And all love completely erased  
We run from the plague  
That you keep right beside you  
So close to you

Just give me the feeling  
Something that'll take me on a ride  
To all the familiar places  
But still a good place to hide  
(So long, nothings worth it)  
So not worth it  
(I scream, you try)  
To hold me down

Hate your beautiful way  
We live in your game  
Your days getting closer  
(Closer! Closer!)  
And all love completely erased  
We run from the plague  
That you keep right beside you  
So close to you

Hate your beautiful way  
We live in your game  
Your days getting closer  
(Closer! Closer!)  
And all love completely erased

We run from the plague  
That you keep right beside you

Hate your beautiful way  
We live in your game  
Your days getting closer  
(Closer! Closer!)  
And all love completely erased  
We run from the plague  
That you keep right beside you  
So close to you  
(So close to you!)
