So alive, so wrong  
Never thought it could be all gone  
I believe  
Time to let it heal  
And start all over again.

I find myself someday  
But it's all up to me  
I wanna be the one who's loved  
I can see, I believe  
I wanna see the one's I lost  
I believe I can see, now

Me up against the wall  
Never thought I could see  
But now I believe  
Time to break it down  
And start it all over again

I found myself today  
But it's all up to me  
I wanna be the one who's loved  
I can see, I believe  
I wanna see the one's I lost  
I believe I can see, now

So now that I can see  
I wanna be the one who's loved  
I can see I believe  
I wanna see the one's I lost  
Look at me and believe  
It's up to me find who's lost  
I believe I can see  
Why can't I be the one who's loved  
I believe I can see, now.
