Lookin' out the window of pain  
I see clearly now your face  
Something so pure  
Something I'm sure will be lost

I'm staring at the shadows in red  
Sends me chills now  
I see clearly  
Everything except your face

I'm lonely, scared to be lonely  
Thought until death meant  
My fears were safe within  
Now they begin

To be lonely, scared of the only  
Thing I knew best so I thought  
I knew everything  
Until now I see I'm lost and lonely

Shatters everything in my head  
Consumes me  
Blinded by one thing  
Obsessed with the need to be loved

Screams become whispers instead  
Assuming  
I know I'm losing all the things  
Closest to me

I'm lonely, scared to be lonely  
Thought until death meant  
My fears were safe within  
Now they begin

To be lonely, scared of the only  
Thing I knew best so I thought  
I knew everything  
Until now I see I'm lost and lonely

Angels swirl around me  
So now I know, I'm not alone

Only scared to be lonely  
Thought until death meant  
My fears were safe within  
Now they begin

To be lonely, scared of the only  
Thing I knew best so I thought  
I knew everything  
Until now I see I'm lost and lonely
