Tell me something 'cause I don't know
If that look's for me
Change your face and show me
How it is that you can sleep?

(Show me your face)
Bring it up to me
(Show me your face)
Means nothing to me
Why don't you tell me?

What you see in me
(A motherfucker without a life that's
Always gettin' somethin')
What you see in me
(I got a life, you get a life
And show me somethin')

What you see in me
(A motherfucker without a life that's
Always gettin' somethin')
What you see in me
(I got a life, you get a life
And show me somethin')

Black and white, I ask this question
Twisted lies come clean
I face it, I see it, don't wanna be it
I hate it, I feed it
Can't wait to see you

(Show me your face)
Bring it up to me
(Show me your face)
Means nothing to me

What you see in me
(A motherfucker without a life that's
Always gettin' somethin')
What you see in me
(I got a life, you get a life
And show me somethin')

What you see in me
(A motherfucker without a life that's
Always gettin' somethin')
What you see in me
(I got a life, you get a life
And show me somethin')

Tell me something 'cause I don't know
If that look's for me

A motherfucker without a life that's
Always gettin' somethin'
A motherfucker without a life that's
Always gettin' somethin'
A motherfucker without a life that's
Always gettin' somethin'
A motherfucker without a life that's
Always gettin' somethin'
Why don't you tell me

What you see in me
(A motherfucker without a life that's
Always gettin' somethin')
What you see in me
(I got a life, you get a life
And show me somethin')

What you see in me
(A motherfucker without a life that's
Always gettin' somethin')
What you see in me
(I got a life, you get a life
And show me)
