"Church Of Madness"

Oh my children of fire,
You've been down for oh so long.
Now your time has expired,
No more concerns about what's right and wrong.

Oh my fallen messiah
They may cut but you'll never bleed
With eternal desire
Live for the pleasure it's all that you need

Come down with me
This light you'll never see
Come home with me
Colony 13, Colony 13

Follow me through this madness
To this place we cannot let go
In the perils of sadness
There's so much more than you ever will know.
