Hey man:

You're so complicated and mean  
maybe your system needs adjustment  
She is a famous people collector  
I'm juggling J-O-B The Judger

Maybe the words don't mean a thing  
They never fill the dead man's shoes  
Who killed the culture-hero trip?  
If it was me then it was you

You can be intimidating when  
people think you're complicated  
How could you be so in-between?  
What they want and what you need  
"Man, you're so complicated and mean"  
The young mustafah cleaner said  
"Don't waste your mojo on a curse  
Politic your angry reason out of bed"

And if your words mean anything  
make them a positive foundation  
Back it up with what you do  
wring the love out of frustration!

You can be intimidated when  
people think you're complicated  
How could you be so in-between?  
What they want and what you need
