You were my first mistake  
And even if that's true  
I would take that punch again  
If it would bring me back

I thought I changed for you  
It turns out just not enough  
Distance and telephones  
I'm no good at being alone

The last sigh is the last word spoken  
Everything else, bent and broken  
I will still be there for you  
The twilight of a love I cheated  
Forget everything that I thought I needed  
But I still remember this...

I shut my doors to you  
But you still got through to me  
Did you give up everything  
Just to find there was nothing left

We seem to disappear  
The closer that we got  
Did I do the vanishing  
Or did you just swallow me up

The last sigh is last word spoken  
Everything else is bent and broken  
But I'll still be there for you  
The twilight of a love I cheated  
Forget everything that I thought I needed  
I still remember this...  
Last kiss

The last sigh is last word spoken  
Everything else is bent and broken  
I will still be there for you  
The twilight of a love I cheated  
Forget everything that I thought I needed  
But I still remember this...  
Last kiss
