I donæŠ° want to spend the rest of my life
starin?at a man, Looking down a line
whatæŠ° he say? ???ot my style?
Just a stylized version of an obsolete file

I donæŠ° want to spend the rest of my time
lookin?for the words læŠ! never going to find
You read them in a book and apply them to your life
but how can I be as pretty as she writes?

I know læŠ! all right. Because
the needle canæŠ° burn what the needle canæŠ° find

She donæŠ° want to spend the rest of her heart
waste it on a job, and never get a start
Part of her says she should be herself
and part of her says she should be with someone else

I donæŠ° want to spend the rest of my life
looking for a girl læŠ! never gonna find.
Starin?back at me when I come home at night
but how can she be as pretty as I write?

It will be hard, but I know læŠ! all right,
because the needle canæŠ° burn
what the needle canæŠ° find
And the money wonæŠ° save what the money
canæŠ° buy

And part of me is safe
And part of me is lies
So be mine tonight.
