If youre the worlds most lifelike girl
And Im the thing you cant stand
Ive seen it go like this before
Fate soon begins

Lets come across
Before we get to my stop
Dont let another light go by tonight
Im wrecking someone elses train

Nobody knows the way I feel
Nobody knows the things I do
If I could take forever
And keep it like this moment here with you

Im exponentially yours
But all families break up
Are we the one percent of one percent of the one
percent thats never given up?

Cos nobody knows the way I feel
Nobody knows the things I do
If I could take forever
And keep it like this moment
This moment here

Some things just hard enough to say
Most things just hard enough to do
But I do them anyway
Just to keep forever

Nobody knows
Nobody knows
If I could take forever
And keep it like this moment here
