

Seven Mary Three "What Angry Blue?"

I know how the good wind blows and it gives me my
time

Don't let them drag your hatred off the line

I know how the anger goes so I bury mine

You know they had me working overtime

I want no part of your blackheart causes

empty speeches

broken promise

I know how the anger flows so I carried time

Don't let them drag the needle through your dime

I know how the hatred goes so I buried mine

Lucky seven Lucky rolls the dice

Yeah that's right.

I want no part of your blackheart causes.

All this preaching and still no progress

What angry blue has got into you?
