Title : You're not the boss of me!

[intro]

Hello fuckers!
Make some noise!

[verse 1]

I don't wanna make you sad.
I just wanna hurt you bad.
I don't wanna deal you pain.
I just want you to scream in vain.
I didn't wanna meet you there.
It just happened, out of despair.
I didn't even wanna say "hello".
It came out like a fucking blow.
I never wanted you to be with me.
I just wanted to know how it feels.
I didn't mean for it to end this bad.
I just wanted to see you sad.

[refrain]

I don't want us to be what
you tell us we'll be, no.
You're not the boss of me!
I won't be what you have always wanted me to be!

[verse 2]

I don't wanna make you sad.
I just wanna hurt you bad.
I don't wanna deal you pain.
I just want you to scream in vain.
I will do what you just did.
Cut me up and make me bid.
You raped my heart and ripped my soul.
Changed my life and all my goals.
Now i'm blind and all alone.

Shaking all the way to the bone.
You left me here without one thought.
You didn't even return what I bought.

[refrain]

I don't want us to be what
you tell us we'll be, no.
You're not the boss of me!
I won't be what you have always wanted me to be!

[verse 3]

I don't wanna make you sad.
I just wanna hurt you bad.
I don't wanna deal you pain.
I just want you to scream in vain.
We've been up and down so long.
If you stay I must go on.
You can't trick me there again.
Through that hell and back again.
I have walked that road before.
But i wont anymore.
I dont care now what you say.
Now im gone and free AWAY!

[refrain]

I don't want us to be what
you tell us we'll be, no.
You're not the boss of me!
I won't be what you have always wanted me to be!
