No Reason  
(Kirk McLeod)

He can't believe his eyes  
But with much surprise  
Believes  
She won't be back today  
I thought I heard her say  
Goodbye

And I believe, in nothing's wrong  
Don't get me wrong  
That's the way it should be

He's floating 'round the day  
Won't come down no way  
No reason  
And I found out today  
That maybe it's okay  
To carry on this way  
If you think it's good for you

And I believe, in a goodbye  
Where no one will cry  
That's the way it should be
