"See The Rain"

The trees are bending in the angry wind that blows
Those big black clouds look like they're going to explode
I made this boat for us to ride until the storm goes
away
I'll give you three reasons why it's time to be afraid
One, I've never sailed before
Two, never navigated a storm
Three, I look so small compared to all of these waves.

[Chorus:]

I will see the rain go away, see the rainbow
The light of blue is bursting through the grey and
I will hear the thunder roll away

I am seasick as lay limp across this rail
Nowhere to go but here and I feel like I am in jail
We've been here forty days and nites
Over this one window we fight
And now I hear Him give three reasons why not to
complain
One, He didn't let me drown
Two, not a single leak was found
Three, we just got evidence we're headed for some
solid ground.

[Chorus]

The night is followed, the night is swallowed by the day
The night is followed, the night is swallowed by the
day.
