Two eyes meet the pull is very strong
The persons dream - It's running on and on
The tenant views a mind to let
With small diversions that could be sooner said

Solely appearing - the person that you're soon to know

The tenant - The tennant
The tennant - he waits
Seductively he's torn apart
The tennant - he waits
Reluctantly he plays a part

An incident it causes an actered state
The tennant can't relate
Habit forming that leads to habit breaking
The tennant's lost in his new undertaking
His mind's confused he cannot tell who is wrong
An image appears but never stays with him for long

The tenant - The tennant
The tennant - he waits
Seductively he's torn apart
The tennant - he waits
Reluctantly he plays a part

The tennant - he waits
Seductively he's torn apart
The tennant - he waits
Reluctantly he plays a part

The tennant stares and shakes with fear
His stage is set his time is drawing near
Act complete as he hits the floor
The crowd roar and some scream for more
The darkness breaks but still the pull is very strong
Two eyes meet the patients dream runs on and on

The tenant - The tennant
The tennant - he waits
Reluctantly he plays a part

The tennant - he waits
Seductively he's torn apart
