

## Seven Places "See The Rain"

The trees are bending in the angry wind that blows  
Those big black clouds look like they're going to  
explode  
I made this boat for us to ride until the storm goes  
away  
I'll give you three reasons why it's time to be afraid

One, I've never sailed before  
And two, never navigated a storm  
And three, I look so small compared  
To all of these waves

And I will see the rain go away, see the rainbow  
The light of blue is bursting through the gray  
And I will hear the thunder roll away

I am seasick as lay limp across this rail  
Nowhere to go but here and I feel like I am in jail  
We've been here forty days and nights over this one  
window we fight  
And now I hear Him give three reasons why I'm not to  
complain

One, He didn't let me drown  
And two, not a single leak was found  
Three, we just got evidence  
We're headed for some solid ground

And I will see the rain go away, see the rainbow  
The light of blue is bursting through the gray  
And I will hear the thunder roll away  
Roll away, roll away, roll away

And I will see the rain go away, see the rainbow  
The light of blue is bursting through the gray  
And I will hear the thunder roll away

The night is followed, the night is swallowed by the day  
The night is followed, the night is swallowed by the day  
The night is followed, the night is swallowed by the day
