The dust is settling now, I can see your expression  
The look on your face is asking me how, how can you  
leave me here?  
My words are falling to the ground, in one ear out the  
other  
I'll just have to live it out

Watch these chains fall from my hands  
Then you will understand  
Then you will understand  
Watch me walk through these prison bars  
Then you will know my heart is free  
Then you will know my heart is free, yeah

Emptiness plagues you inside, you're surrounded by  
sorrow  
It follows you where you hide, and exposes you every  
time  
There is life beyond this crippling cage, and shelter  
from the rage  
Only you can decide

Watch these chains fall from my hands  
Then you will understand  
Then you will understand  
Watch me walk through these prison bars  
Then you will know my heart is free  
Then you will know my heart is free

For the first time I'm alive  
No longer pressed by doubt and fear  
No longer drowning in my tears  
He saved me from going under

Watch these chains fall from my hands  
Then you will understand  
Then you will understand  
Watch me walk through these prison bars  
Then you will know my heart is free  
Then you will know my heart is free

Watch these chains fall from my hands

Then you will understand  
Then you will understand  
Watch me walk through these prison bars  
Then you will know my heart is free  
Then you will know my heart is free, yeah
