i'm dead from all the loneliness this is how i feel
understanding everything has never been my deal
maybe you have crossed my path to live inside of me
or maybe you're the reason why i'm losing all my
decency
but i believe that you and me
we could be so happy and free
inside a world of misery
and i believe that you and me
we could be so... inside of you inside of me
cuz this could be the one this could be the one
this could be the one this could be the one
i've been lookin' lookin,
lookin' i've been lookin' for my mrs. right but she don't
exist
chemistry is everything
and we're anything but this
maybe i have crossed your path to sweep you off your
feet
or maybe i'm the reason why you cry at night before
you sleep
but i believe that you and
me could be so happy and free inside a world of

misery

and i believe that you and me we could be so...

inside of you inside of me

cuz this could be the one

this could be the one

this could be the one

this could be the one

what do you think?

we could give it a try

'cause you never know maybe we could be soul mates

but maybe not or maybe so

if you never try then you'll never know

the grass could be greener (could be)

and it'll always be greener on the other side

but you just never know this could be the one

i do believe that you and me

we could be so happy and free inside a world of misery

and i believe that you and me,

we could be so...

inside of you inside of me

'cause this could be the one

this could be the one

this could be the one

this could be the one

maybe so maybe

not who knows
