give it a rest
and then try it again with more soul
until you learn that clearing your heads'
the same as losing control in this space
don't let it drive you crazy
don't let it drive you insane there's no point
because you just keep turning us on and turning us off
and on and off and on

until we're light as a feather and we're stiff as a board
light as a feather and we're stiff as a board

give it a break
'cause if you try it again you'll get bored
because you don't really know where it starts
but you know that it ends with no friends
'cause even this is a test
well i'm sorry if it breaks your bubble
but you still need some rest
because it's gonna go
it's gonna go

on and on and on
on and on and on
on and on and on
until it hurts

we will go
on and on and on
on and on and on
on and on and on
until it hurts

turning us on and turning us off
you keep turning us on and turning us off X5
turning us on and turning us off
