"Stop the Bleeding"

Dry the blood
I'm done feeling the separation
I'm sick of your dried blood
This is self control
Stop this standard
It never stops
It's not gonna stop the shame you feel when you're
alone
Tragic, non stop, wake up and die
Madness, weak will
Dead weight is not the answer
I tried for years just to finalize
I tried to cut the vein instead
Dry the blood
Dry the blood
Separation done
Stops this standard
It never stops
It never stops the shame you feel when you're alone
Someone stop the bleeding
Fall in love alone
Tell me there is a balance that is self control
Stop this standard
Someone stop the bleeding
Addictions I have gone cold
Give me sense of balance that isn't self control
Can someone stop the bleeding Addictions I control
Someone stop the bleeding
Someone stop the bleeding.
