[Verse One]

Through the years, of watchin the behavior of an MC
I came to the conclusion that a sucker mind is empty
What I'm tryin to say is ingenuity is lackin
Full participation is the only thing I'm askin
Focus your full attention on every word that is
expressed
Uttered, announced, spoken or told
Swallow it whole then let my science explode
But still I'm classified as a sucker, so?
I overlook, then invent a rhyme to get 'em wise
But you're too busy bein beamed up to the Enterprise
You have no grabs, no concept, no nothin
but then you criticize the rhymes that I be bustin
How can you do this when you're stankin brand new to
this?
Be aware that I'm not the MC to diss
I'm just a man that enjoys this type of music
and you don't have the faintest idea of how to use it
For the next few minutes please let me enlighten you
but don't bite into, or I'll be fightin you
And then that will only add into the crime rate
when my goal is to help you like rhyme straight
You have a very very very short attention span
And after this you'll probably be another wishin fan
Knowledge on the loose, and there's no stoppin it
You want true enlightenment? Well I'm droppin it

[Verse Two]

Super-cala-fraga-listic, let's kick it live again
Do I have to tell you that you're wack, time and time
again?
Here's a brief example of a complicated cut
{*DJ cuts and scratches rapidly*} So what?
For a song like this a cut like that would not be needed
If not used correctly then the purpose is defeated
For example {*better scratch*} sounds much better
However; many, are not that clever
To the hip, hop, now yo just stop it!
