

Seventh Day Slumber

"Eden"

toleration of anything and everyone
one nation under God
we stand infection
I feel myself screaming
personality are the reasons for everything
why can't we all just live
not denying ourselves of anything?
why are things so attractive?
for great is the gap to eden
religion make no idol before God
democracy
one nation under God
longevity
make no idol before God
eternity are the reasons for everything
the mirror shows what we are what we see is what we
become
what will happen when the mirror breaks
can I ever walk in the garden
