Well Im living with these old lies  
And Im stuck back here in yesterday  
Keep your head up itll get better  
Thats all I hear but Im still drifting away

I said myself for winds of fortune  
Well Im sorry but theres no end today  
And bodys getting tired  
Guess Ill kill myself and ease the pain

I cannot take another moment  
Do I just lay back be crucified

I want to believe in something  
Man I feel like Ive just wasted away  
I gotta believe in something  
Ohâ€¦ before I'm dead

Man Ive traveled every highway  
Now just cant seem to find the one thats right  
And Ive burned that bridge behind me  
I want my sanity  
I just want my piece of mind

I cannot take another moment  
Do I just lay back be crucified

I want to believe in something  
Man I feel like Ive just wasted away  
I gotta believe in something  
Ohâ€¦ before I'm dead
