How did I get so far from the promises I made?
Life it seems so dark compared to yesterday
And everything I had the gift that I received
Is slipping through my hands, now it's only make
believe

Fading away and I feel like I can't breathe
Tomorrow's gone, how long until I break?
Fading away, I'm trapped inside of me
Tomorrow's gone, how long until I break?

All the things I chose that slowly took Your place
Are laughing back at me, I can't make them go away
My life is crashing down, another tragedy
Another broken dream, now it's only make believe

Fading away and I feel like I can't breathe
Tomorrow's gone, how long until I break?
Fading away, I'm trapped inside of me
Tomorrow's gone, how long until I break?

Fading away and I feel like I can't breathe
Tomorrow's gone, how long until I break?
Fading away, I'm trapped inside of me
Tomorrow's gone, how long until I break?
