

Seventh Day Slumber "More"

Visit "[More](#)" on MotoLyrics.com

Do you really wanna know me
Not just where I live
Do you really wanna know me
Not just by the color of my skin
Do you really wanna know me
Not just by things I did
If you really got to know me
Well it might take a little time
Cause I am more than what I look like
And I am more than where I've been
And I am more than what they say about me
And I'm more I'm more than what you think
Do you really wanna know him
The man who lives under that bridge
Do you really wanna know him
And hear about the life he's lived

If you really got to know him
You might be just a bit surprised
How he lost his job in 1983
And how that cancer got his wife
He's more than what he looks like
He is more than where he's been
He is more than where hes lived enough to be
He's more he's more than what you think
And I am more than what I look like,
And I more than what I look like,
And I am more than what I look like,
And I more than where I've been,
And I am more than what they say about me,
And I'm more I'm more
