"Save Me"

This has taken so much time
Slowly making up my mind

But now that I want you
It seems you belong to
Someone else again

Open up the final blow
I know you can save me
Where did I go wrong before
Long before you came

Taking chances, last in line
Now I'm handed this fate of mine

But all that I want to
Do is belong to
Something real with you

Open up the final blow
I know you can save me
Where did I go wrong before
Long before you came
When this all was a stand that I'd make
All alone
When I need you

This cannot be all that's in the plan
Life without you cannot be the end

Open up the final blow
I know you can save me
Where did I go wrong before
Long before you came
When this all was a stand that I'd make
All alone

When I need you
(When I need you, when I need you)
When I need you
(When I need you, when I need you)

When I need you
(When I need you, when I need you)
When I need you
