Let me down, don't let me down
Wait it out, don't wait it out
Turn me round, don't turn me round

Mother-of-pearl revolver in her hand
Grab the barrel and knock me in the sand

If we gotta hold on, then why we wondering?
If it's gonna work out, then why we stumbling around?
If it's gonna work out, then why we stumbling around?

Let me down, don't let me down
Wait it out, when you said you wouldn't

When you saidÂ
That your crooked feathers
Could forever keep me in tow! (who-oo!)

If we gotta hold on, then why we wondering?
If it's gonna work out, then why we stumbling around?
If it's gonna work out, then why we stumbling around?

(Aaahh)

If we gotta hold on, then why we wondering?
If it's gonna work out, then why we stumbling around?
If it's gonna work out, then why we stumbling around?
