Lightning & thunder  
In the summer, in the summer  
And there's nothing higher  
Top of the hill!

Bright as a morning  
In the summer, in the summer  
And any day now (2x)  
We're struck down (2x)

Take a drag, put it out  
There's no way down  
Got a hand, got a heart  
We got it made!

(Instrumental)Â

See that patch of city lights, down on the right?  
Somewhere in there is a five-and-dime...  
I met you at closing time (2x)

Take a drag, put it out  
There's no way down  
Got a hand, got a heart  
We got it made!
