Just a little feel good lie  
Check your alibi

Everybody tells a little story  
Everybody tells a lot of lies  
Sometimes you gotta be careful  
You gotta check your reasons why

(Do what you gotta do)  
Better watch your back  
(Say what you gotta say)  
You gotta be careful, boy  
Everybody's got a little secret  
Everybody's got a darker side  
Did you think I wouldn't see you right through it?  
Your alligator tears are dry

(You gotta say what you gonna be)  
Better watch your back  
(See you put on a front)  
Oh, be careful, boy  
Better run away  
I don't wanna play  
Who needs anyway?

You think you're irresistible  
So hot it's unbelievable  
I'm thinking you're just predictable (yeah, yeah, yeah,  
yeah)  
Better check your alibi  
When you look me in the eye  
Make up real good lies  
Like them feel good lies  
Think I'm messing with your plan  
I don't really give a damn  
But they're real good lies  
Them feel good lies

Check your alibi

Come down, get a little real

Find something that can work for you  
You ain't no superhero  
Just a faker with an attitude

(Be what you gonna do)  
Better watch your back  
(Come to me)  
You gotta be careful, boy  
Better run away  
I don't wanna play  
Who needs anyway?

Real good (real good)  
Feel good lies (feel good lies)  
No good (so good)  
Alibis (you better check your alibis)  
Real good (the one you used to do)  
Feel good lies (you used to make me cry)  
No good  
Alibis (oh no oh oh)

You think you're irresistible  
So hot it's unbelievable  
I'm thinking you're just predictable (yeah, yeah, yeah,  
yeah)  
Better check your alibi  
When you look me in the eye  
Make up real good lies  
Like them feel good lies  
Think I'm messing with your plan  
I don't really give a damn  
But they're real good lies  
Them feel good lies
