The thing that's in my head
All the things you said
About the way things are
Finding out I'm wrong
Missing all the little things we
Sheared together
Now that it's all gone

And it feels like
It's empty all around
It's all made up
It feels like it
It feels like it's over now

I think about the day
Turn and walked away
Cause I am who I am
I try to sacrifice
All the things I tried
All that made you see you here
Now that it's over
It's all turned back

And it feels like
It's empty all around
It's all made up
It feels like it
It feels like it's over now

Yer it feels like
It's empty all around
It's all made up
It feels like it
It feels like it's over now
Yer...
It feels like it's empty all around
It's all made up
It feels like it
It feels like it's all over now...
