Tie my hands and torture me
Until I find the meaning of my life
The light that I see can you take me there
To the meaning of my life

1234
This is how fast time goes by
I can't seem to find the meaning of my life

Here one day and gone the next
You can't afford to live or die tonight
The light that I see can you take me there
To the meaning of my life

1234
This is how fast time goes by
I can't seem to find the meaning of my life (2x)
Find the meaning of my life
How hard does it have to be
To live in this perfect world
Why is it so hard
So hard to be
Who you want to be
When you're searching for your soul

1234
This is how fast time goes by
I can't seem to find the meaning of my life (2x)
Find the meaning of my life
Find the meaning of my life
