"Angel Leads Me On"

We keep each other in the air
And from there we're afraid of falling down
She don't believe I really care
Oh, she'll be runnin' as soon as we reach the ground
But her angel leads me on
'Til I find her lovin' arms

Just when I think it's safe to doubt
I turn about and find I've been left behind
There's only so long I can go without
Like a fool I shout instead of cryin'
But her angel leads me on
'Til I find her lovin' arms

A home sinking in the sand
It hurts to understand where I went wrong
So I'll believe with an empty hand
I'll receive at last what I can't own
But her angel leads me on
'Til I find her lovin' arms
