Yes, I want to get it but I can't chawl
'Till she gets around to what she came for
If you're into the sound then get your dance on
One you can't cut it with a chainsaw
I just want you next me
Come on engine light in your heart
Turn on for me, or at least flicker slowly
Love is gonna sound the alarm
You are my one
You are my only
Yes I wanna ketch her but she breeze by
Chasin' the wind and the winter sky
Droppin' my keys I'll let you take my ride
I just want you kissin' me
Chorus
I know what you said but you can't mean by
Trouble with the man he ain't rich now
He's a serious dude he ain't Rip Torn
Prayin' for rain he get a hailstorm
I just want you ---- me
Chorus
