If ever you are walkin' down the lonely street  
No one to lean on  
No one to help you on  
Cars and buildings so high  
Disparity so wide  
The only dreams we can see  
Are the ones on the t.v.  
If you need somebody,  
If you need,  
If you grieve,  
I'm your sole salvation.

The city is on fire  
Can't you see these streets emptied in ashes, witless  
Made afraid  
Made expatriots  
Made youth of idle science and unbelief  
So far from my brother  
Passin' down the street.
