These days without you let me down slow  
And keep me after what I used to know  
And keep me waiting for your smile  
Sunlight in your eyes  
And deeply hopin' you'll be coming home

These days have got me down upon my knees  
Amazed at what I never thought I'd need  
If I could have you I would try  
Not to let slip by  
For what once seemed so important to me

Chorus:  
And when I wake up  
I reach over for you  
No I won't stray 'cause  
I'm troubled for you

These days I'm counting on the sun to take  
And find me dreaming that you'd gone away  
And wait to hear you grumble along  
Lord, I've been so wrong  
And sorry for the things I didn't say

Chorus

These days without you know  
They're gonna end  
'Cause time can't come between two better friends  
And what I can't see I will find  
Cannot lose it's shine  
And what is broken time is gonna mend

Chorus
