i've been out on my own,
i've been doing real fine.
i watch you wreck what you can it's crazy cause..
it seems your out of your mind.

but you live in a dream,
and it's not going well.
there's nobody to help you,
cause your living
in- hell.
well they say you've been good,
and some say you've been bad.
i like to laugh when your happy baby.
you make me cry when your sad.
but you live in
a dream, and it's not going well.
supperman cannot save you- cause- you're going to
hell.
you are going to hell.
