i thought i could touch the stars
i lie alone at night
i don't know where you are
my face explodes
tear-drops into tears
and every second i'm not with you
well it seems like years.

i've told you
how i love you
and need you
will kill you
yeah,yeah

i won't die
but i don't feel the same
i lie awake at night
hoping to see you again
my face explodes
tear-drops into tears
and every moment i'm not with you
well it seems like years.

i love you
i need you
yeah, yeah
and i told you
that i'd kill you
yeah, yeah
ah'hah
ah'hah
ah'hah
ah'hah
