Ye Ye Ye Ye Ye
Ah Oh Ah Oh (2X)

Took me such a long time
Never thought that I'd find
The one I could call mine (such a long time)
And a fairytale and a silly call, simple fantasy
How could it be?

That my dreams are now all coming true
I know it's all because of you
You're the one that I've been waiting for
And I will never let go

And now that you've made everything complete
Only what I need is everytime that you are near
You always make me feel
I wanna fly away

Ye Ye Ye Ye Ye
When you are around
Ye Ye Ye Ye Ye
I hear the angels singing
(Saranghae, Uri duri, Youngwonhi)

Oh I love your smile, I love your kiss
It makes them all that I ever needed to get me
Through every lonely day
I wanna say, yeah

And now that you've made all my dreams come true
I only want to be with you
Darling you will be my everything
And I will never let go

Baby everytime our fingers seem to smile
Put your hands in mine
'Cause everything just starts to shine
Your touch makes me feel

I wanna fly away

Find it hard to believe that it could be this love
That you've finally found the one
He's the one who will adore me
The one who'll always make me feel
Make me feel that...

I am soaring in the clouds above
Can you see me I'm soaring high?
(And now that you've made all my dreams come true)
The way you make me feel
(I only want to be with you)
I'm in heaven now

Honey you are always in my heart
It makes me wanna fly high
Baby everytime your lips are touching mine
I want it all the time

Because if this thing make me feel
It'll always make me feel
I wanna fly away

Ye Ye Ye Ye Ye
Ah Oh Ah Oh
Ye Ye Ye Ye Ye
Can you hear the angels singing?

Ye Ye Ye Ye Ye
Ah Oh Ah Oh
Ye Ye Ye Ye Ye
Can you feel the world go round?...
Aww~...
