I seen her walkin across the street
In slow motion on beat
from her head to the feet I knew that we had to mee
all i want is your brain
focusin on her frame
Spittin my usual game
I think I just came
but I didn't I'm kiddin
I want it ridden hard and put away wet
get it all over the T.V. set
Ain't no one beat me yet
Don?t think that I don't care boo
Drinkin some coffee from Caribou while I'm with you

Chorus:

I want somebody now
to come lay down with me
I got that dirty south and girl I aim to please
So let me bang side to side
I'll have you feelin like U gone to heaven and died

cuz I aim to please

I think I love you but maybe I don't

Baby don't think I won't

Take care of you and your baby

I mean I doubt it but maybe

Call up your girlfriends

lipstick lesbians

wanna be.thespians

I call them equestrians

Cuz they like to ride

I know I said we getting married but I lied

so close your eyes and say yeah yeah yeah

Everything will be alright

I say yeah yeah yeah

I love your lazy eyes

I say yeah yeah yeah

so close your eyes and say yes to me
