Music: Dexter Kozen, Lyrics: Bill Coates

I got a dizzy feeling

Kinda feel alright

I kinda feel like someone else

I wanna shoot on sight

I got a poison headache

Got it all the time

I went to see the doc

He said you're doing fine

But you got something on your mind

But you got something on your mind

Smoke a little garbage

Drink a little drink

Nuke a little dinner

Throw up in the sink

Watch a little TV

Catch a couple of rays

Something growing in my brain

It's bigger every day

Well I got something on my mind

Well I got something on my mind

Carcinoma carcinoma carcinoma

She's so fine

{Guitar}

I can't take the pressure

I can't make it quit

I used to wear my hat

But now it just don't fit

I'm gonna do some damage

Then I'll do some more

Black & Decker surgery

You can clean up the floor

Cause I got something in my brain

Cause I got something in my brain

Carcinoma carcinoma carcinoma carcinoma carcinoma

carcinoma carcinoma

That's her name
