We walk side by side with an angel  
And I hold hands with the devil  
And everything feels the same  
It always feels the same

Nothing ever changes  
I can't see myself changing  
But it just doesn't matter

It's okay 'cause we are the same  
No one greater than the other

Maybe he is the handsome devil  
And maybe she is an Angel  
But it just doesn't matter

It's okay 'cause we are the same  
No one greater than the other  
No one greater than the other

We fall and we'll sing it for the last time  
We fall

It's okay 'cause we are the same  
No one greater than the other
